The Appraiser's inspection of the property was limited to what was readily observable without moving furniture, floor coverings or personal
property. Unless otherwise stated, the Appraiser did not view attics, crawlspaces or any other area that would involve the use of ladders or
special equipment. The Appraiser's viewing of the property was limited to surface areas only and can often be compromised by landscaping
placement of personal property or even weather conditions. Most importantly, the Appraiser's inspection of the property is far different from and
much less intensive that the type of inspections performed to discover property defects. The Appraiser is not a home inspector, building
contractor, pest control specialist or structural engineer. An Appraisal is not a substitute for a home inspection or an inspection by a qualified
expert in determining issues such as but not limited to foundation sottlement as stability, maintain analysis and the section by a qualified
expert in determining issues such as but not limited to, foundation settlement or stability, moisture problems, wood destroying (or other) insects,

#### Final Summary of Sales Comparable Approach:

Adjustments over 10% and 15% were attributed to GLA and amenities, with every effort made to bracket those aspects and/or provide a similar sale. Final estimated value was figured using a weighted average with comparable 4 having the predominant weight and value at 30% due to the lower adjustments, comparables 1, 2, 3 4 and 5 all having similar adjustment ranges and all being figured at 20% each.

#### Land values

Subject - MLS# 20184861, 3 macres on Derrick Rd sold for \$82,500 in 2019 or \$27,500 an acre and MLS# 20211454, 4.80 acres sold for \$155,000 or \$32,291 an acre. Subject has been figured at apx. \$30,000 an acre. Comparables 1, 2 and 3 are noted in a range from \$20,000 to \$40,000 depending on location and size.

#### **INTENDED USER STATEMENT:**

The intended user of this appraisal report is the lender/client and/or assigned. The intended use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated scope of work, purpose of the appraisal, reporting requirements of this appraisal report form and definition of market value. No additional intended users are identified by the appraiser.

The appraiser has not identified any purchaser, borrower or seller as an intended user of this appraisal, and no such party should use or rely on this appraisal for any purpose. Such parties are advised to obtain an appraisal from an appraiser of their own choosing if they require an appraisal for their own use. Any reference to or use of this appraisal report by a purchaser, borrower or seller for their own purposes, including without limitation for the purposes of a property purchase decision or an appraisal contingency in a purchase agreement, is at such party's own risk and not intended or authorized by the appraiser.

#### **ADDITIONAL NOTES:**

New Mexico is a Non Disclosure state, therefore, no public information is available regarding property transfers and property profiles which include the details reported to the city regarding said properties. As a result, the discovery of comparable sales is limited to the local multiple listing service of the Albuquerque Board of Realtors. When deemed necessary and possible, additional sources are investigated and/or utilized. The Appraiser's opinion is that the sources used and available within this report were sufficient to provide a reliable and accurate estimate of value for the property being appraised. The data researched and utilized is believed to be from a reliable source. The value conclusions are subject to the accuracy of the data used in the report. Information on subject property has been obtained through the homeowner and the Appraiser's personal inspection and research. Information for comparables has been obtained through a drive by inspection of each comparable property and the local MLS, which has been deemed reliable as per the Albuquerque Board of Realtors.

# **FLOOD ZONE DATA:**

Flood Zone obtained through www.fema.gov

<u>Appraiser Independence Statement:</u>
"I was engaged appropriately by <u>Valley Bank of Commerce</u> and I completed the appraisal report in compliance with all applicable Appraiser Independence regulations".

# HIGHEST AND BEST USE STATEMENT:

The subject zoning code is R-1, Single Family Residential as verified by the city of Carlsbad, NM. The subject as improved is a legally permissible use based on its current zoning. The lot size, shape, physical condition and land to building ratio allow the present structure and indicate a good utilization of the improvements. Based upon the current market conditions, the present use as a single family residence is its financially feasible and maximally productive use. The highest and best use is its present use.

# AMERICAN NATIONAL STANDARDS INSTITUTE MEASUREMENT:

The Subject Property has been taped and/or laser measured, calculated and reported as per American National Standards Institute® (ANSI® Z765-2021) of measurement.

Subject property has not been inspected since 02/20/2019. At Lender request properties have been updated using the prior inspection. For a more accurate and reliable report, Property should be inspected again.

Market Conditions Addendum to the Appraisal Report Case No.

File No. 2502 Hepler Rd

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009. Property Address 2502 Hepler Road City Carlsbad State NM ZIP Code 88220-9591 Borrower Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include that data in the analysis. If data sources provide all the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc. **Inventory Analysis** Prior 7-12 Months | Prior 4-6 Months | Current - 3 Months Overall Trend Total # of Comparable Sales (Settled) Increasing X Declining Stable Absorption Rate (Total Sales/Months) 0.83 0.67 1.33 Increasing X Stable Declining Total # of Comparable Active Listings 4 Declining Stable Increasing Months of Housing Supply (Total Listings/Ab, Rate) 3.61 8.96 3.01 X Increasing Declining Stable Median Sales & List Price, DOM, Sale/List % Prior 7-12 Months Prior 4-6 Months Current - 3 Months Overall Trend Median Comparable Sales Price 178,000.00 169,500.00 171,587.00 Increasing X Stable Declining Median Comparable Sales Days on Market 78 168 68 X Declining Stable Increasing Median Comparable List Price 177,500.00 174,450.00 170,000,00 Declining Increasing Median Comparable Listings Days on Market 90 115 82 Declining X Stable Increasing Median Sale Price as % of List Price 98.89 100.00 100.89 Increasing X Stable Declining Seller-(developer, builder, etc.) paid financial assistance prevalent? Yes No Declining ||X Stable Increasing Explain in detail seller concessions trends for the past 12 months (e.g. seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs condo fees, options, etc.) It appears that typical seller contributions have been minimal within the past 12 months. It appears buyers are taking advantage of the lower interest rates and/or the lower MARKET sales prices as most homeowners are accepting offers within 1-5% of the market price. The lower priced homes are seeing faster sells. Marketing times are 0-3 months Adjustments on the grid for active and pending listings have been made at 2% which appears typical in the current market Are foreclosure sales (REO sales) a factor in the market? Yes X No If yes, explain (including the trends in listings and sales of foreclosed properties). Cite data sources for above information. Local Realtors, Local MLS, Appraiser research and Appraiser's knowledge was used to obtain the information noted above. Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales, and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions If the subject is a unit in a condominium or cooperative project, complete the following: Project Name: SUBJECT IS NOT A CONDOMINIUM Subject Project Data Prior 7-12 Months Prior 4-6 Months Current - 3 Months Overall Trend N/A Total # of Comparable Sales (Settled) N/A N/A Increasing Stable Declining Absorption Rate (Total Sales/Months) N/A N/A N/A Increasing Stable Declining N/A N/A Total # of Active Comparable Listings N/A Increasing Months of Unit Supply (Total Listings/Ab.
