Out on the wind swept frontier of West Texas lies the small town of McCamey. An overnight boom town from the 1920's that once boasted a population of 10,000 in a sweeping sea of tents, McCamey has developed a rich history of hardy people, working together to overcome the obstacles presented by surviving in a harsh and arid land. Today, McCamey's population of 1,805 make their living primarily in the oil industry, with some farming and ranching in the area. Working hard to cope with the instability of the oil market by exploring other economic development possibilities, McCamey, the Wind Energy Capital of Texas, eagerly anticipates the new millennium as a wealth of opportunity!
